

# ACHIEVING SUSTAINABLE DEVELOPMENT IN MEDIA BOROUGH

Lamisa Hossain '25  
Field Site: Media Borough

Field Advisor: Karen Taussig-Lux    II    Faculty Advisor: Victor Donnay

## 1 Praxis Project

- Reviewed the Borough’s ongoing sustainability projects
- Advised on new projects in the field of waste management, climate resiliency and sustainable urban planning
- Conducted cost-benefit analyses to evaluate effectiveness of proposed programs

## 2 Learning Outcomes

- Applied academic knowledge to practical issues in sustainability
- Learned about community-based sustainability initiatives
- Developed analytical skills to work with large data sets
- Conducted qualitative evaluations of sustainability projects

## 3 Challenges

- Discrepancies in data collection
- Solutions are often easy in theory, difficult in practice
- Building institutional support
- Limitations in the built environment reduces the scope of eligible projects

## 4 Areas of Focus

- Waste Management: Streamline Waste Management System + Expand Composting Program
- Sustainable Urban Planning: Net Zero Buildings
- Climate Resiliency: Green Roofs

## 5 Findings & Key Takeaways
