

An environmental nonprofit uplifting next generation climate leaders

What is Turning Green?

- An environmental nonprofit powered by student. Turning Green, inspires, educates and mobilizes youth around environmental action, sustainability, justice, and health.
- During my Praxis, I helped facilitate Project Green Challenge.

What climate topics are covered?

Who is involved in PGC?

- Students from around the world participate + submit entries.
- A team of readers engage with each participant's work and allot points for prizes.
- Incredible partners provide prizes that students can receive each day!

Students from: 46 States 75 Countries

What did I learn?

- Expanding my voice as a writer through different types of communications.
- Furthering my passion in digital media.
- Building leadership + interpersonal skills mentoring a PGC Finalist

How can you get involved?

- Visit projectgreenchallenge.com
- Check out TG's social media channels! @Turninggreenorg
- Sign up for TG newsletters

What inspired me?

- Connecting directly with students - their excitement, passion, hope, and push for change was everything!
- It reminded me . . . even amidst the challenges of climate work, we can all be changemakers, especially when we work together.

What is Project Green Challenge (PGC)?

- A 30 day climate action journey (in October) with eco-themed challenges!
- Empowers high school, college, and graduate students.
- In November, 14 finalists gather in California for PGC Finals.

A quote of inspiration I came across during prep for PGC:

“What would it look like if we really lived as if we loved the future and all the possibilities it holds?”
~ Dr. Ayana Elizabeth Johnson

What did I work on?

- Writing, editing, uploading, and scoring challenges.
- Crafting daily emails on each PGC topic and newsletters.
- Connecting with participants through social media.
- PGC Finals Ambassador.
